

## Quality Assurance (QA) Tester

(Full Time/Internship)

### Job Summary:

As a QA App Tester, you'll be responsible for performing manual testing to ensure our applications function as expected across a wide range of scenarios. This role focuses on regressive testing to identify issues before our apps go live. You will collaborate closely with developers, product managers, and other QA team members to identify and resolve potential issues efficiently and effectively.

### Responsibilities:

- Perform regressive testing on new and existing app functionalities to ensure consistent, high-quality performance
- Conduct functional, UI/UX, and compatibility testing on iOS, Android, and web applications
- Identify, document, and track software defects and inconsistencies
- Work closely with developers to reproduce and diagnose reported issues, verifying fixes before releases
- Design, document, and execute test cases and scenarios for various test phases, including smoke, sanity, and regression tests
- Actively participate in team meetings, providing insights and recommendations based on testing results
- Assist in defining quality standards and metrics for the project and product

### Qualifications:

**Experience:** Experience in QA, specifically in app testing with a focus on regressive testing, is preferred but not required. Freshers with excellent attention to detail and the ability to identify UI/UX flaws and inconsistencies are encouraged to apply.

### Technical Skills:

- Proficiency in using testing tools and bug-tracking systems (e.g., JIRA)
- Familiarity with both iOS and Android operating systems and devices
- Experience in writing and executing test cases and test plans

**Analytical Skills:** Strong problem-solving skills with the ability to think critically and troubleshoot issues effectively

**Communication:** Excellent written and verbal communication skills; able to document and report issues clearly

**Attention to Detail:** Exceptional attention to detail, ensuring every aspect of the application is tested and reviewed
